

JEL KYANN TAGLE

SOFTWARE ENGINEERING • DATA SCIENCE • APPLIED CRYPTOGRAPHY

Manila, Philippines | info.keyno@gmail.com | [linkedin.com/in/jelkyanntagle](https://www.linkedin.com/in/jelkyanntagle) | github.com/keynowawa | kyanntagle.site

EDUCATION

B.S. Computer Science, Major in Data Science — Adamson University, Manila

Expected 2027

- 1.11 GWA, a consistent Dean's Lister; completed two years in the Computer Science and Information Engineering dual-degree.

EXPERIENCE

Product Manager & Full-Stack Developer — Freelance

doubletime.ph

2026 – Present

- Built an offline POS around DoubleTime's existing workflow, consolidating six processes for daily order tracking and Excel/CSV reporting.
- Translated stakeholder requirements into two deployed web products, delivering cloud sync, role-based access, and responsive mobile workflows.

JPV Motorcycle Rental

2025

- Streamlined client onboarding operations through a centralized rental platform, from document verification and status tracking into a cohesive user experience.

Applied Cryptography Researcher

2025 – 2026

- Led VERA testing at 10/50/100-request loads, meeting thresholds with zero failures or degradation and resolving four defects across four phases.
- Designed a 360-trial PhilSys matrix without live identity data, defining regression-ready BBS+/Groth16 latency, throughput, memory, and privacy KPIs.

Network Analyst

DPWH Metro Manila 2nd District Engineering Office

2025 – 2026

- Audited a 300-workstation network on a 20 Mbps uplink, evaluating three servers and seven switches to prioritize capacity, VLAN, and virtualization upgrades.

Computational Systems

2026

- Simulated 300 agents to quantify bot influence; 5% bots drove 55–70% peak and 10–15% residual misinformation despite corrections.

Software & Unity Developer

2024 – 2026

- Delivered eight cross-platform prototypes to test social and native-interaction concepts, including three issue-driven games and a Force Touch experiment.

LEADERSHIP & COMMUNITY ENGAGEMENT

Executive Treasurer & Finance Committee Head

Adamson University Scholars Alliance

2026 – Present

- Managed reimbursements, advance requests, supplier receipts, fund distribution, liquidation, and audit compliance to strengthen financial traceability.

Hiraya-ADU

Jun 2024 – 2025

- Directed PHP 27,000+ across six events and raised PHP 16,612 for Bahay Aruga pediatric cancer patients, achieving 100% reconciliation through controlled procurement, disbursement, and liquidation.

Event Director, Logistics Lead, & Technical Operations

Camp Raya

Apr 2025

- Led a 100-participant SDG 8 program recognized among the university's Top 10 Spiritual Events; coordinated program design, security, A/V, and multi-department logistics

Hom-Cor Marketing & Construction Services Corp.

Mar 2023

- Conducted supporting document control, administrative coordination, and daily office operations in a construction-services environment..

Adamson Senior High School Supreme Student Government

2022 – 2023

- Conducted a 300-guest technical seminar, distributed essential goods to 500 beneficiaries, and delivered mental-health and anti-stigma campaigns.

PROJECTS

VERA Vault | *Chrome MV3, Node.js/Express, WebAssembly, BBS+, MongoDB*

2026 – Present

- Built a privacy-preserving credential workflow and validated 10/50/100-request loads with zero failures or degradation.

Privacy-Preserving PhilSys Credential Evaluation | *JSON-LD, Circom, Groth16, SnarkJS, BBS+*

2025 – 2026

- Designed a 360-trial matrix without live identity data, producing BBS+/Groth16 latency, throughput, memory, and disclosure KPIs.

DPWH Network Infrastructure Profile | *VLAN, TCP/IP, Network Analysis*

2026

- Mapped 300 workstations, three servers, seven switches, and a 20 Mbps uplink to isolate bandwidth, VLAN, and virtualization gaps.

doubletime.ph | *TypeScript, Vite, Supabase, PostgreSQL, Responsive Web Design*

2026

- Built an offline-capable POS with inventory, approvals, dashboards, synchronization, and Excel/CSV exports for the matcha bar's daily operations.
- Established a direct customer channel by deploying a responsive brand and menu site across desktop and mobile.

AnoSked? | *Next.js, TypeScript, Tesseract.js, PWA*

2026

- Developed a local-first planner that parsed enrollment schedules, linked tasks to subjects, worked offline, and exported recurring .ics calendars and phone wallpapers.

JPV Motorcycle Rental | *HTML, CSS, JavaScript*

2025

- Launched a multi-page rental platform with discovery, document verification, interview scheduling, account recovery, and application-status workflows.

BubbleWrap for macOS | *Swift, AppKit, Force Touch*

2025

- Created tactile stress relief by synchronizing Force Touch pressure with native haptics, sound, and animation on macOS.

TwinUp | *HTML, CSS, JavaScript, PWA*

2025

- Improved replayability without accounts through an installable PWA with chained scoring, touch controls, audio, and local scores.

Metro Mayhem | *Unity, C#*

2025

- Built a rage-platformer that connected inconsistent systems and escalating difficulty with Philippine public frustration and abuse-of-power.

SKILLS

Languages: JavaScript, TypeScript, Python, C#, Java, Assembly, Swift

Web / Application: Next.js, Node.js, Express, HTML, CSS, Vite, Tailwind CSS, AppKit, Chrome MV3, WebAssembly

Data/Databases: PostgreSQL, MongoDB, Supabase, Power BI, RapidMiner, NetLogo

Security / Systems: BBS+, zk-SNARKs, Groth16, W3C Verifiable Credentials, Circom, SnarkJS, Chrome MV3, WebAssembly, networking

Tools : Git, GitHub, VS Code, Postman, Chrome DevTools, Unity, NetLogo, macOS/Linux CLI

Product / Delivery: Agile/Scrum, stakeholder management, cross-functional collaboration, data-driven decision-making, KPI tracking, ROI prioritization

CERTIFICATIONS

Technical: Pearson IT Specialist — Networking (2026) and Databases (2025); IBM Data Analytics (2026); AWS Cybersecurity (2025); Kennesaw State Cybersecurity Risk Management (2026)

Project Delivery: Google Foundations of Project Management (2026); Johns Hopkins Project Execution & Control (2026); UIUC Project Initiation & Planning (2026); IBM Agile Development & Scrum (2026); LearnQuest Scrum Master (2026)
